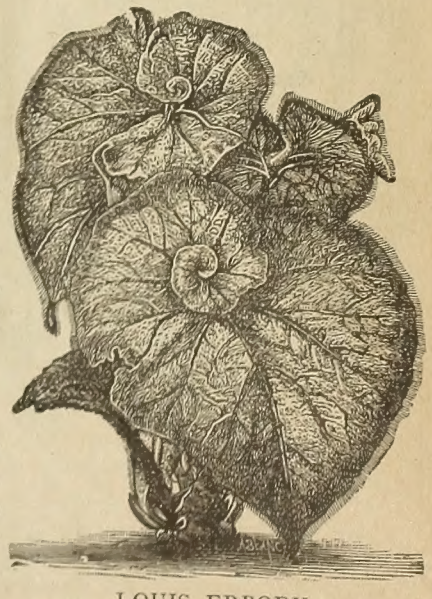
LOUIS CHRETIEN.

A fine Rex Begonia of exceedingly beautiful coloring, and a very high lustre, like changeable silk. Flowers large, and of a beautiful pink. $1.00 per dozen.

LOUIS ERBODY.

This is an interesting and curiously handsome variety. This variety retains the general character of the Rex family as to growth, but is so distinct in form and peculiar leaf formation that it stands out unique and striking in all its individual beauty. Having a good stock we are able to place this novelty within the reach of all. Price, 20 Cents each, $2.00 per dozen.



LOUIS ERBODY.

LESOUDSII.

This is the largest leafed of any of the Rex family. It is impossible to describe in words the beautiful markings of this magnificent Begonia. It is a cross between B. Diadema and a Rex variety, but retains in a marked degree the Rex character. Excepting Countess Erdody, we consider this the finest of all the Rex family, both in size of leaf, rich coloring, and conspicuous zone. 15 Cents each, $1.50 per dozen.

STANDARD SORTS OF REX.

Named in ten varieties. 75 Cents per dozen, $5.00 per 100.

A collection of twenty-five varieties for $2.00.

BEGONIAS.

Novelties and New Varieties.

DIADEMA.

PAUL BRUANT.

A Begonia that grows in fine, bushy tree form, increasing in size and number of leaves very rapidly. On account of its free growth and easy culture, it is bound to become popular. The form of the leaf is shown in the engraving; it is of very heavy texture and a deep olive green. The bloom is borne in the greatest abundance on long graceful stems, and is of two forms, a part being very large and of a peculiar rose shade, the smaller forms being rose and white, the petals quite transparent; continues in bloom from November to May, and is a handsome plant at any season of the year. 35 Cents each.

DIADEMA. (See Cut.)

An elegant new Begonia, particularly adapted for house culture, its large deeply cut foliage and its silvery dots and veins as well as the fine habit of its growth. As a market plant it will prove one of the best we have had for years. We predict that this variety will prove as valuable as Rubra. We have a fine stock to offer of this sterling variety. 15 Cents each, $1.50 per dozen, $10.00 per 100.

SEMPERFLORENS ELEGANS.

This fine new variety attains a height of twelve to fourteen inches, and is a compact mass of medium sized, glossy, olive green leaves. It blooms continuously and is so free as to present the appearance of a huge bouquet. The flowers are a rosy flesh color, and are raised well above the foliage on strong foot stems. We believe the above is the finest flowering Begonia yet introduced. 15 Cents each, $1.50 per dozen, $10.00 per 100.

NOTE.—The above is a variety of great merit and should be better disseminated.

M. DE LESSEPS.

A decided improvement on Argentea Gutatta, the leaf being four times the size seen in that variety, while the silky texture is the same, and it is beautifully spotted with silver. A very strong, free-growing variety that will succeed with any ordinary care, growing rapidly and sending out quantities of leaves. This is a wonderfully beautiful sort, of splendid habit and strong growth 35 Cents each, $3.00 per dozen.

ARGENTEA GUTTATA. (See Cut.)

A cross between Olbia and Alba Picta. This variety has the silvery blotches of Alba Picta, and the form and beauty of Olbia. Purple bronze leaves, oblong in shape, with silvery markings. White flowers on the tips of the stems. Good plants, 20 Cents each, $1.50 per dozen, $10.00 per 100.

ARGENTEA GUTTATA.

BEGONIA OLBIA.

$10.00 per 100.

A LATE introduction and still quite scarce and altogether a grand variety; the leaves are from seven to ten inches in diameter, and are separated into deep sharp points ; the color is varying shades of brown and red, the young leaves having large silver blotches and are very bright and attractive, the arrangement of the veins gives the leaf an uneven surface. This variety soon attains a heavy main trunk, which carries the branches in erect form, making one of the finest decorating varieties we have ; flowers very large and of a crystal white. Each 25 Cents, $3.00 per dozen.

NEW BEGONIAS.

Two fine varieties. We consider these the finest additions made in recent years, and will please all.

This cut is a true representation of this grand variegated Begonia, Its heavy glossy leaves being boldly blotched with a rich golden cream, and a clear carmine etching in the matured leaves; altogether making the handsomest variegated plant known. It is equally as strong in growth as Manicata. 25 Cents each, $3.00 per dozen.

Glorie de Sceaux.

One of the finest flowering Begonias introduced for many years. It is of upright habit, producing during the entire winter large flowers of a soft, clear pink, contrasting well with the rich plum foliage of the size and shape of the Rex. A good thing. Each 20 Cents, $2.00 per dozen.

Begonia Decora.

A shrubby decorative variety, with dark green obliquely lanceolate leaves, profusely marked with oblong spots or dots of a silvery-grey color; somewhat of the character of Begonia Argyrostigma, but with the spots more minute. It has been introduced from Brazil. 10 Cents each, $1.00 per dozen.

BEGONIA COMPTA.

A pretty ornamenttal species from Brazil. Its leaves have palish pink footstalks, which are five to six inches long, remarkable for the unequal development of their two halves, the one side being narrowed to the base, and the other developed into a roundish angular lobe. The color is satiny green with a silvery tinge along the course of the mid-rib; this coloration with the satiny surface being of a very pleasing character. 10 Cents each, $1.00 per dozen.

$10.00 per Set of 12.

Harry E. Widener.

Winner of the Blanc prize at the Philadelphia show, November last, 'for the best seedling plant." This is unquestionably the variety of the year, and unequaled in its color by any. Bright lemon-yellow in color, without shadings. Flower large, on stiff, stout stems that hold the flowers erect, without support; incurving, forming a large rounded surface; petals crisp and stiff; very free in growth, but not coarse. This is *the* cut flower variety, and all that could be desired in the way of good color, fine form, and lasting qualities. $300 was paid for the stock of this fine variety. Raised by Wm. Jamison. See what competent judges say of this excellent variety:

"Book us for 200 plants of H. E. Widener. I do not hesitate to pronounce this the finest yellow Chrysanthemum yet produced.

And Varieties Worthy of Special Mention.

Madame Hoste.

This rose possesses all the requisite of a first-class forcing variety, and we predict it will take rank with all of the best forcing varieties of to-day, of strong growth, buds large, fine form and very freely produced. Color is a light yellow or cream white. 15 Cents each, $1.50 per dozen, $10.00 per 100.

White Perle.

This, Mr. Ritter, the originator, claims is a sport from Perle des Jardines. It is of strong, vigorous growth, producing freely, very fine, white blooms. We do not recommend this for forcing, but it is a remarkable bedding variety for producing buds in summer in the open ground. $1.50 per dozen.

Mme. Schwaller.

(Hybrid Tea.) This rose has the strong, firm growth of the H. Ps., the same form and finish of flower, being especially beautiful when full grown; it is very free in bloom and has the fragrance of La France. The color is a bright rosy flesh, paler at the base of the petals, and deepening on the edges. Apt to come in clusters, which are excellent for cutting. $1.00 per dozen, $6.00 per 100.

Meteor.

(Hybrid Tea.) A velvety red everbloomer of the deepest glowing crimson, as fine as a Hybrid; flower of medium size, very double, and petals slightly recurving; a beautiful open rose, a free bloomer, and promising well as a pot rose. It has no tinge of violet or purple to mar its beauty (as Bennett often has), it does not come minus a stem, as Duke of Connaught so often does, but promises to be a reliable dark red everbloomer. $1.00 per dozen, $6.00 per 100.

Princess Beatrice.

A vigorous grower, thick, handsome foliage, and very free flowering. Flowers carried on long stems; large, full, perfect form; petals round, broad and very thick; outside petals, pale yellow, center, rich golden yellow; edge of petals lightly laced with bright rose. Duchess of Albany.

(Hybrid Tea.) This beautiful novelty is in the way of La France, but deeper in color, more expanded in form, and larger in size. The flowers are deep even pink, very large and full, highly perfumed, and in all respects of first quality. The growth of the plant is exceedingly vigorous, the habit is good, and the flowers, which are thrown up well above the foliage, are produced in extraordinary profusion; the plants continually covered with handsome blooms. We believe that this rose, when generally cultivated, will rank equal with La France for forcing purposes. It is being grown largely this year for cut flowers. 25 Cents each, $2.00 per dozen.
